

## Certificate Course in Colon Capsule Endoscopy Training for Healthcare Professionals

### Advisors

Prof. Joseph Sung, Prof. Francis Chan, Prof. James Lau, Prof. Simon Ng, Dr. Ruby Lee, Dr. Susie Lum

### Trainers

Dr. Raymond Tang, Dr. Kelvin Lam, Prof. Justin Wu, Prof. Martin Wong, Prof. Siew Ng, Ms. Jessica Ching, Ms. Phyllis Lam & Mr. Thomas Lam

### Overview

The incidence and mortality of colorectal cancer (CRC) are on a rising trend globally. It is currently the most common cancer in Hong Kong. Colon capsule endoscopy is a non-invasive alternative of conventional colonoscopy, which can improve the uptake of CRC screening.

### Objective

To provide colon capsule endoscopy training for primary care providers to promote colorectal cancer screening.

### Course details

- Didactic lecture on epidemiology and screening strategies of CRC and basic principles of lower GI endoscopy (weekend)
- Hands on workshop of colon capsule endoscopy video review (weekend);
- A series of web-based learning program, exercises and assessments (home-based);

### Time Frame

Approximately 2 months

**CME and CNE points will be accredited.**
